

Prof. Dr. Markus Paulus – Research Funding

Our research is and was funded by

- Deutsche Forschungsgemeinschaft (DFG)
- European Research Council (ERC)
- German-Israeli-Foundation (GIF)
- LMUexcellent
- Jacobs Foundation

Current third-party funded research projects include

- The development and cognitive structure of the moral self-concept (ERC Starting Grant)
- The development of pro-social behavior (DFG)
- The development of action anticipation (DFG)
- The development of an understanding of embedded structures in language and action (DFG)
- Growing up in a technical world and the development of anthropomorphism (Jacobs)
- The early ontogenesis of social learning (Jacobs Research Fellowship)

Spokesperson in current DFG-funded research associations and networks

- Scientific network: Neuroscientific methods in developmental psychology (speaker, collaborating with PD Dr. Nicola Ferdinand, Saarbrücken)
- Focus program (SPP): The active self (representative speaker; collaborating with Prof. Dr. Bernhard Hommel, Leiden, and Prof. Dr. Verena Hafner, HU Berlin)
