

RESEARCH COLLOQUIUM

Summer Semester 2021

General and Experimental Psychology, LMU Munich

Via Zoom

Organizer: Prof. Hermann J. Müller

Week	Date	Speaker	Title	Host
1	14/04		NCP Reception	
2	21/04 12.15	Anat Arzi U.o.Cambridge, UK	The nose knows: olfactory sniffing signals consciousness in unresponsive patients with brain injuries	TS
3	28/04	tba	tba	
4	05/05	Sepideh Sadaghiani U.o.Illinois, USA	The functional connectome across spatiotemporal scales: integrating fMRI and (i)EEG	AR
5	12/05 12.15	Garrett Douglas MPIB, Berlin	Moment-to-moment variability as a principled signature of brain function	MB
6	19/05	Angelika Lingnau U.o.Regensburg	The cognitive and neural architecture of observed actions	SSB
7	26/05		(Whitsun/Pentecost Week)	
8	02/06	Milena Rabovsky U.o.Potsdam	Modelling the N400 brain potential as change in a probabilistic representation of meaning	HJM
9	09/06 12.15	Ruffin VanRullen CNRS Toulouse, F	Do deep learning latent spaces resemble human brain representations?	JN
10	16/06	Burcu Aysen Ürgen U.o.Bilkent, TR	Perceiving actions of others: Interdisciplinary work between cognitive neuroscience and social robotics	SY
11	23/06 12.15	Markus Janczyk U.o.Bremen	Crosstalk and activation transmission in dual-tasking	HJM
12	30/06	Miguel A. Vadillo U.o.Madrid, ES	Visual statistical learning, fast and slow	AZ
13	07/07	Massimo Turatto U.o.Trento, I	Distractor filtering and habituation	FA
14	14/07		Examination Week
